RE: AAVIN Mezzanine Fund, LP Interim Financials
For the first quarter ended March 31, 2017

Portfolio Update:
As of March 31, 2017, the fund had invested cost of $ 20,467,631 million dollars in eight portfolio companies. Two portfolio companies have repaid debt of $ 2,986,060. As of March 31, 2017, investments in portfolio companies, carried at cost, totaled $17,481,570. These investments have returned total cashflows of $4,542,172 as of March 31, 2017.

The following is a summary of the portfolio as of March 31, 2017:

Company	Total Invested Cost	Current Valuation	Total Proceeds Received thru 3/31/17
B12 Transportation Group LLC	$ 1,636,032	$ 1,636,032	$ 173,885
CPI Luxury Group	3,554,811	924,251	3,086,170
Montana Silversmiths, LLC	2,133,000	1,777,500	447,191
Odessa AIM Holdings, Inc.	3,199,329	3,199,329	289,203
SPI Acquition Holdings, Inc.	3,448,350	3,448,350	151,523
Transfer Tool Systems LLC	1,874,185	1,874,185	224,988
Verrex, LLC	1,421,924	1,421,924	105,212
Weeks Service Company	3,200,000	3,200,000	64,000
	$ 20,467,631	$ 17,481,570	$ 4,542,172

New Investments:
On March 10, 2017, the Fund invested in Weeks Service Company, based in League City, Texas. The company performs installation, service and maintenance of heating and air conditioning products.

Deal Flow:
In the first quarter of 2017 we reviewed 200 + potential investment opportunities. We currently have two investments under letter of intent with LOIs totally over $9 million. Both are anticipated to close by the end of second quarter 2017.

Capital:
To date we have drawn private capital of $10.87 million or 52.5% of committed capital. SBA leverage outstanding totals $9.68 million. We currently anticipate a 10% capital call or $2,000,000 late in the third quarter of 2017.

If you have questions or matters you wish to discuss please contact me.

Thank You – Sincerely,

James D. Thorp – Managing Partner

1. Nature of business and significant accounting policies

Organization and nature of business

AAVIN Mezzanine Fund, LP (the "Partnership") is a limited partnership organized under the laws of the State of Delaware to operate as a mezzanine and private equity fund to provide debt and equity capital to small later stage businesses throughout the United States. The Partnership was formed on October 10, 2014 and commenced operations on October 31, 2014 under the Amended and Restated Agreement of Limited Partnership ("Agreement"). Effective January 7, 2015, the United States Small Business Administration ("SBA") approved the Partnership's license application to operate as a Small Business Investment Company ("SBIC") under the provisions of Section 301(c) of the Small Business Investment Act of 1958, as amended. As of December 31, 2014, the Partnership consists of 48 limited partners and a General Partner, AAVIN Mezzanine, LLC. The Partnership's fiscal year ends December 31. Significant accounting policies followed by the Partnership are presented below.

Under the Agreement, the Partnership shall continue until the first to occur of the following: (1) withdrawal, dissolution or bankruptcy of the General Partner, or (2) the later of October 10, 2024 or two years after all outstanding SBA leverage has matured, subject to two additional one year extensions to such date in the sole discretion of the General Partner or (3) at the election of the General Partner and a majority interest of the Limited Partners after October 10, 2024 if all outstanding SBA leverage has been repaid and all amounts due the SBA have been paid.

Basis of accounting

The accompanying financial statements have been prepared on a basis of accounting prescribed by the U.S. Small Business Administration which is a basis of accounting other than accounting principles generally accepted in the United States of America ("U.S. GAAP"). Some of the key considerations are as follows:

Investment securities included in the financial statements will be valued by the General Partner using the valuation criteria applicable to the licensee established in accordance with Section 310(d)(2) of the Small Business Investment Act of 1958, as amended. The reported value used for equity securities in the Statement of Financial Position (also known as "SBA Guideline Value"), must be determined in accordance with a licensee's valuation policy and is reported by the SBIC as of a measurement date in accordance SBIC 13 CFR 107.503. Reported value may differ i n certain instances from fair value, which is the measurement of value that would comply with U.S. GAAP. In September 2006, the FASB issued ASC 820-10, *Fair Value Measurements*, which defined the value in accordance with U.S. GAAP as the "price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." The primary differences between the two measurements are that in the case of values determined in accordance with SBA Guideline Value (i) an increase in value above cost may only be reflected in reported value if there is a specific permitted basis under the licensee's valuation policy; (ii) liquidity (or "blockage") discounts, which are prohibited under U.S. GAAP, must be considered for inclusion in reported value; (iii) the reported value of interest-bearing securities is not adjusted for changes in interest rates. It is expected that reported value will not exceed, but may be less than, "fair" value in accordance with GAAP.

The differences between reported values and U.S. GAAP reported fair values may be significant.

There may also be other differences between SBA-basis financial statements and U.S. GAAP-basis financial statements including, but not limited to, the treatment of unrealized gains and losses, and presentation of financial highlights.

Investments

As of March 31, 2017, the Partnership had made eight investments, which are carried at cost. Management expects to call the remaining capital from limited partners over the next four to six years and identify companies for investment. Investment securities of the Partnership will be included in the Statements of Financial Position at SBA Guideline Value, as described previously. Investments for which no active public market exists will be valued at SBA Guideline Value as determined in good faith by the General Partner and approved by the investment committee of the General Partner, based on all relevant factors. The investments will be carried at cost until events subsequent to the date of investment indicate that cost is not the best measure of SBA Guideline Value. If such events have occurred, the value will be determined by taking into consideration the cost of the securities; developments concerning the company to which the securities relate subsequent to the acquisition of the securities; any financial statements and projections of the company provided to the General Partner; and, such other factor or factors as the General Partner may deem relevant. Among the factors considered in determining the reported value of investments will be the cost of the investment; developments subsequent to the acquisition of the investment, including recent financing transactions; the financial condition and operating results of the portfolio investment, market values for similar securities, the long-term potential of the business of the portfolio investment; overall market conditions and other factors generally pertinent to the valuation of investments.

In the valuation process, the General Partner will use financial information received monthly, quarterly, and annually from the portfolio companies which will include both audited and unaudited financial statements. This information will be used to determine financial condition, performance, and valuation of the portfolio investments.

The value of certain investments may also be adjusted to equate to a subsequent significant equity financing that includes a sophisticated, unrelated new investor. An investment may be valued at less than cost if the investee shows a significant fundamental deterioration in financial position or operating results or has defaulted under the terms of its agreement with the Partnership.

Use of estimates in preparing financial statements

The preparation of financial statements in conformity with accounting practices prescribed by the SBA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of credit risk

The Company maintains its cash and cash equivalents at one financial institution. The balances are insured by the Federal Deposit Insurance Corporation ("FDIC") up to $250,000.

Cash and cash equivalents

The Partnership considers highly liquid investments with maturities of three months or less when purchased to be cash equivalents. At March 31, 2017, the Company had no cash equivalents.

Partners' capital - distributions and allocation of gain and loss

Capital contributions are credited to the partners' capital accounts when received by the Partnership. Capital distributions are debited to the partners' capital accounts when paid. Income and losses are allocated to the partners' accounts in accordance with the Agreement as described below.

Distributions to partners are generally made (i) first, to the partners in proportion to their respective capital contributions until they have received distributions equal to their capital contributions with respect to all realized investments and the pro rata expenses of the Partnership with respect to all realized investments; (ii) thereafter 80% to the partners in proportion to their respective capital contributions and 20% to the General Partner.

Net profits and net losses of the Partnership will be allocated to the Partners' respective capital accounts in a manner consistent with distributions.

Revenue recognition

Interest income will be recorded on the accrual basis. Accrual of interest will be ceased when, in the judgment of management, the collectability of such income is doubtful. A reserve for loss is established to the extent there is doubt as to the collection of the amounts previously accrued. Dividend income is recognized on the ex-dividend date.

Amounts reported as realized gains or losses on investments will be measured by the difference between the net proceeds of sale or write-off and the cost basis of the investment on the specific identification method, without regard to unrealized gains and losses. The cost of securities that have, in the General Partner's judgment, become worthless, are written off and reported as realized losses.

Unrealized appreciation of investments

Unrealized gains (losses) on securities held results from the valuation of investments by the General Partner. Unrealized appreciation will be recognized for valuations above cost and unrealized depreciation is recognized for valuations below cost. Unrealized gains or losses are the aggregate amounts obtained by summing the unrealized appreciation or depreciation of all investments, net of any estimated future income tax effects. Such changes are recorded directly in the partners' capital account, unrealized appreciation of investments, in the Statement of Financial Position.

Income taxes

The Partnership, with the consent of its partners, has elected to be taxed under sections of the federal and state income tax law as a Partnership. As a result of this election, no income taxes are paid by the Partnership. Instead, the Partners separately pay tax on their pro rata allocation of the Partnership's income, deductions, losses and credits. The federal and state income tax returns for the years ended December 31, 2014 and thereafter are subject to examination by taxing authorities, generally for three years after they are filed.

2. Small Business Administration debenture securities

The Partnership has a license with the Small Business Administration ("SBA") which allows for advances through the form of debentures to assist with funding investments in portfolio companies. Terms of these debentures are determined using the applicable interest rate at the time the funds are advanced. As of March 31, 2017, the Company had drawn SBA debenture securities of $9,680,000.

On December 15, 2014, the Company applied for a commitment from the SBA to issue debentures securities totaling $20,030,000. The SBA provided a commitment letter on February 12, 2015 which reserves debenture securities in the amount requested to be issued to the Company on or before September 30, 2019. Each issuance of leverage under this agreement is conditioned upon the Company's creditworthiness (as determined by SBA) and full compliance with all other SBA requirements set forth i n 13 CFR 107.1200-1240 of the Federal Register.

The Company paid a non-refundable leverage fee of $200,300 (1% of the total commitment) for the above commitment. In addition, the Partnership must also pay a 2% leverage fee, 0.375% underwriter's fee, and 0.05% administrative fee at the time each draw is advanced on the debenture securities. These fees will be netted from the cash proceeds of the debenture securities issued. The Partnership also must pay an annual charge equal to 0.742% on each debenture security drawn.

The commitment fee paid of $200,300 is being amortized on a straight-line basis until the commitment expires on September 20, 2019. Leverage fees incurred of $234,740 are being amortized over the ten-year term of the leverage on a straight-line basis. The total of these fees as of March 31, 2017, was $435,040 and accumulated amortization of $109,190.

3. Notes Payable

The Partnership has a revolving credit agreement with a bank, under which the Partnership can borrow up to $4,000,000. All borrowings under this agreement bear interest at a minimum of 4.50% annually and adjusts upward if the prime rate plus 1% is greater than the current rate. The current rate is 4.50%. The agreement expires August 31, 2017. As of March 31, 2017, the Partnership had no outstanding balance under this agreement.

4. Management agreement and related party transactions

The General Partner has contracted with AAVIN Equity Advisors, LLC ("AAVIN") to manage the Partnership's activities. Under the terms of the management agreement ("Management Agreement"), AAVIN provides essentially all of the management and administrative services required by the Partnership. The Management Agreement expires upon termination of the Partnership. The management fee is based on the total amount of capital under management (regulatory capital plus assumed SBA leverage). The management fee will be up to 2.5% of the total amount of capital under management for the five years following the initial closing, and thereafter up to 2.5% of the cost basis of loans and investments in active portfolio companies. However, if the total amount of capital under management exceeds $60 million, SBA policies require a proportionate reduction in the percentage rate down to a rate of 2.0% when the base is $120 million or more. SBA rules also require that fees received under 13 CFR 107.860 of the SBA regulations (loan application or

closing fees) must be paid directly to the SBIC fund or treated as an offset to management fees. For the three months ended March 31, 2017, $100,134 in fees were generated to offset management fees.

Total management fees expense for the three months ended March 31, 2017, totaled $377,047 net of $100,134 in closing fees. Management fees payable as of March 31, 2017, totaled $385,829.

Six of the limited partners of the Partnership are also members of the General Partner. One of the members of the General Partner owns 100% of AAVIN Equity Advisors, LLC ("AAVIN").

5. SBA compliance

The SBA requires the Partnership to calculate a quarterly capital impairment ratio and notify the SBA if impairment exists. As of March 31, 2017, the fund was in compliance with the permitted capital impairment threshold.

6. Regulatory capital and assumed SBA leverage

As of March 31, 2017, the Partnership had regulatory capital of $20,394,951 which does not include $312,099 of unfunded commitments from non-institutional investors. The Partnership's assumed SBA leverage, based on two times regulatory capital as of March 31, 2017, was $40,789,902.
